**OFFICE OF SECURITY
ANNUAL RECORD OF
OVERT AND SEMI-COVERT CASES RECEIVED.**

CHART #1

The cases reflected in this chart consist of all staff applicants and other "overt" or "semi-covert" type cases, such as consultants, staff type contract employees, military assignees, guards, char force, etc., all of which normally require full field investigations. Also included in this category are other "overt" or "semi-covert" type cases not requiring full field investigations but on which checks are made, such as the activities of the Contact Division, Office of Operations; and all persons checked in connection with classified procurement, technical contacts, administrative support and miscellaneous cases.

25X1

Those overt and semi-covert cases requiring full field investigations are combined with the covert cases requiring full field investigations to show the total full field investigative load in Chart #5.

CHART #2

This chart records T/O Staff Applicant Cases only. The cases shown as Received , are included in the total overt and semi-covert cases shown in Chart #1, but are presented separately in this report because of the particular interest of the Agency in the status of this type of case and also for the purpose of showing the number of approvals and disapprovals.

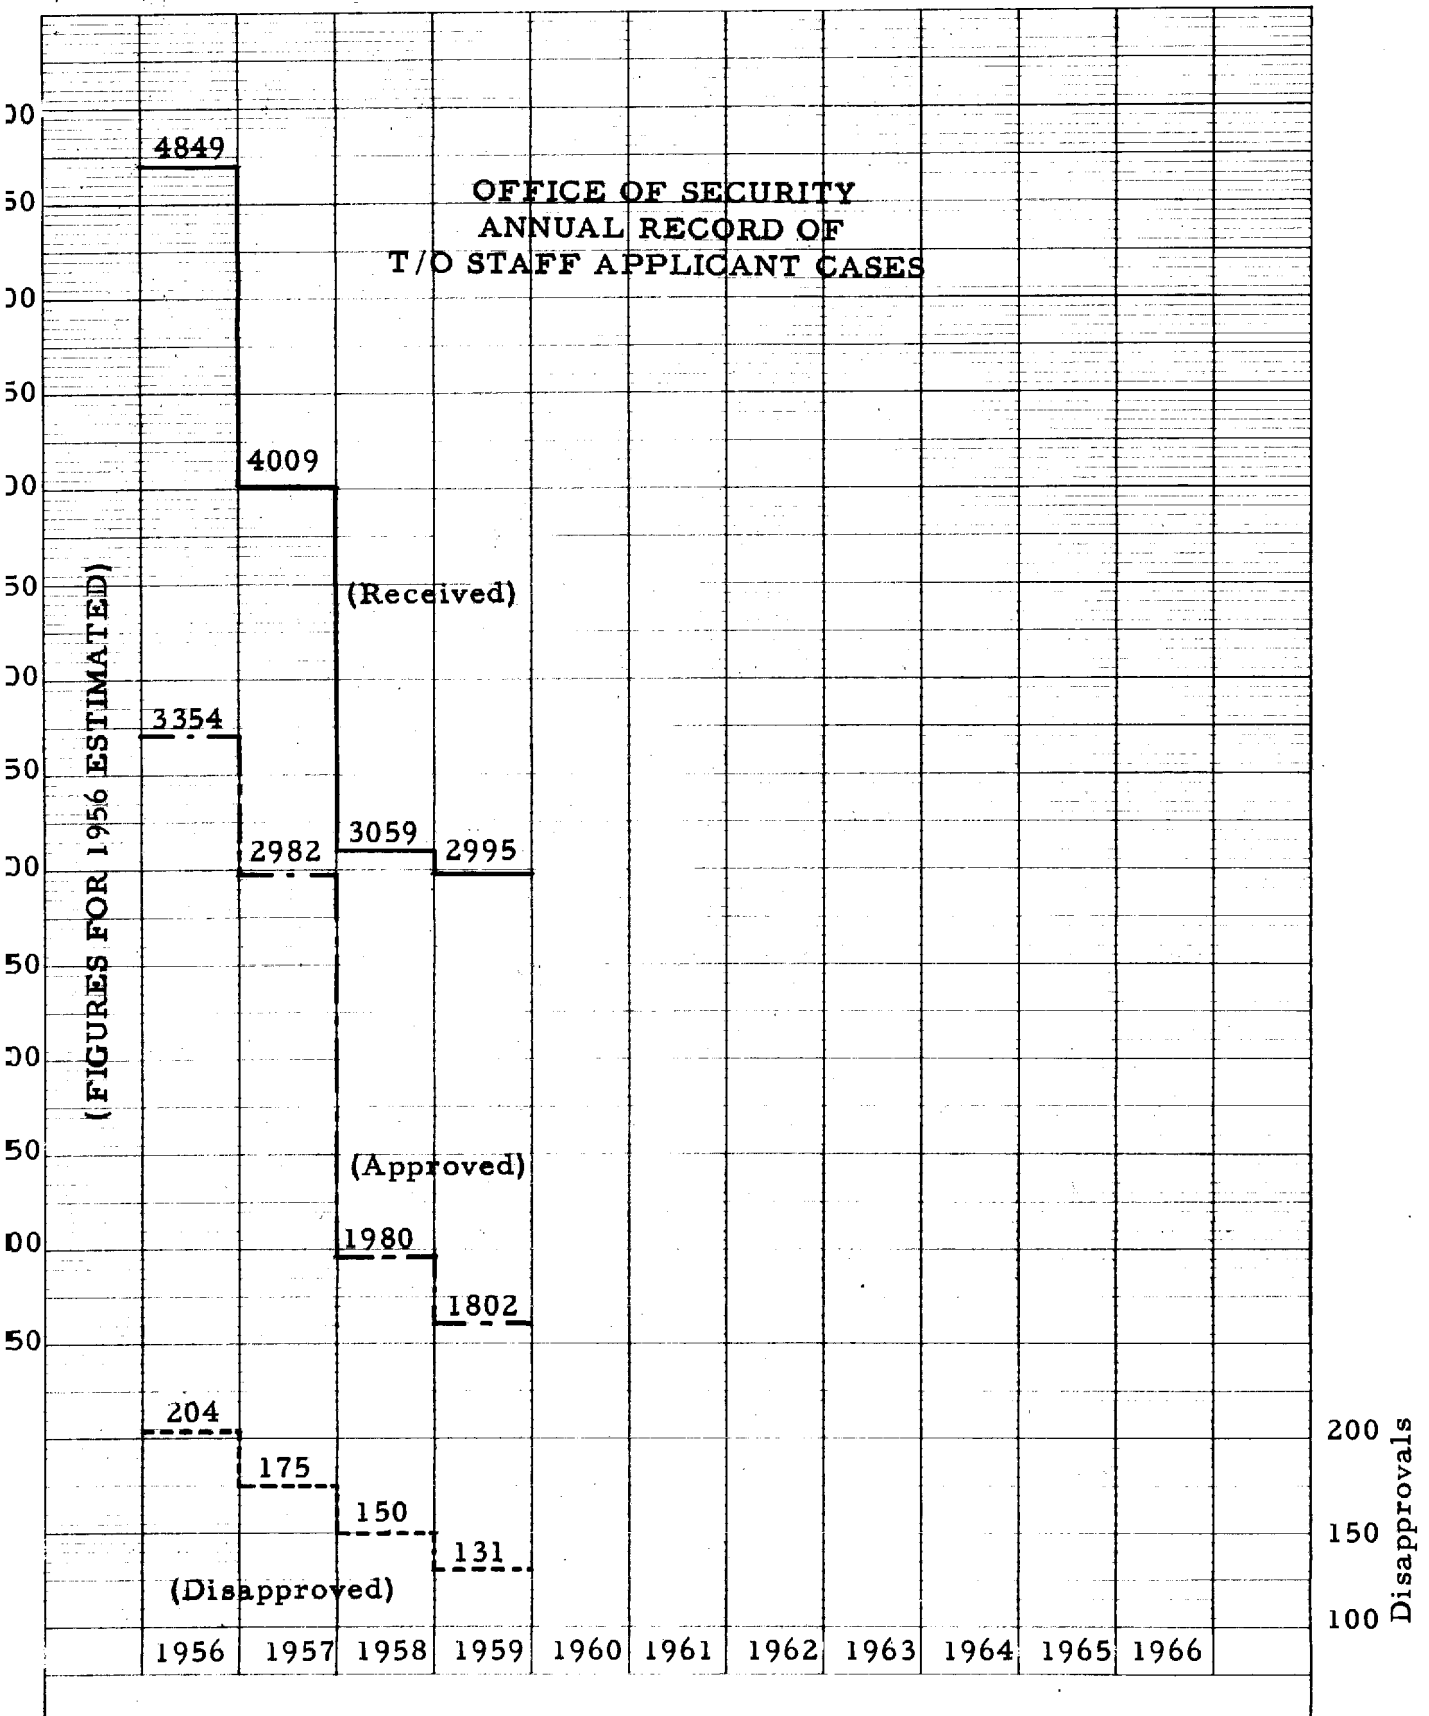

All of these cases received full field investigations and are included in the total shown in Chart #5, which presents all overt and semi-covert cases and covert cases requiring full field investigations.

The difference between the total T/O Staff Applicant cases Received and those Approved or Disapproved reflects a considerable percentage of cases which are cancelled, withdrawn, or given other action. Cases disapproved by the Medical-Security-Personnel Review Panel are not included in the disapproved cases shown in this chart.
